

You've Found the Solution

Who We Are

For over three decades, THInc.IT has been providing world-class technology solutions to organizations throughout the Mid-Atlantic region. THInc.IT is a leading provider of Microsoft-centric business solutions, enterprise consulting, and application design, development, implementation and integration services.

What We Do

THInc.IT helps organizations capture, manage, secure and deliver information to meet strategic goals and objectives. Leveraging your existing technology investments and the cloud, we architect and deploy open, flexible solutions to give businesses a competitive advantage.

Strategic Management & IT Consulting

Helping organizations align technology with business goals and objectives.

- ▶ IT Strategy & Roadmap Creation
- ▶ Business Process Requirements Assessment
- ▶ Software Search & Selection
- ▶ Software Implementation Project Oversight
- ▶ IT Due Diligence
- ▶ "Go-Live" Readiness Assessments
- ▶ Fractional CIO/CTO Services

Business Applications

Ensuring that organizations select and configure their business applications in a way that enhances the company's operational efficiency.

- ▶ Horizontal Applications (ERP, Accounting, HRIS, CRM, Customer Service, Field Service, Case Management)
- ▶ Vertical Applications (Forensic Advantage, BrAD, DNA, PERK, Fiber Strike, etc.)

Cloud Solutions

Helping organizations use the cloud to improve scalability, agility, reliability, security, and cost management.

- ▶ Hybrid Cloud Strategy
- ▶ IaaS/PaaS/SaaS Assessments
- ▶ Cloud Data Center and Security Design and Management
- ▶ Disaster Recovery
- ▶ DBaaS & IDaaS
- ▶ Web Applications
- ▶ Desktop and Mobile Device Management

Managed Services Provider

Providing customers with outsourced day-to-day technology and security operations management.

- ▶ 24/7/365 Help Desk
- ▶ Cloud Solution Provider
- ▶ Infrastructure, Security, and Desktop Managed Service

Business Intelligence

Working with organizations to more effectively leverage data when making both tactical and strategic decisions.

- ▶ Performance Dashboards
- ▶ Data Analytics and Visualization
- ▶ Artificial Intelligence and Machine Learning
- ▶ Report Centers and Digital Workplace Integrations

Digital Workplace

Ensuring customers are maximizing value from their collaboration and automation solution investments.

- ▶ Intranets
- ▶ Collaboration & Communications Solutions
- ▶ Business Process Automation
- ▶ Information Architecture & Branding
- ▶ Migrations
- ▶ Training and Adoption Program Management
- ▶ Cloud-based Web, Mobile, and Internet-of-Things (IoT) Custom App Development

Let's Get Started

Clients consistently rate us highly on our ability to understand the issue, define the problem and provide resourceful solutions. Our staff consists of certified individuals with years of experience, enabling us to design, implement, and integrate solutions on any scale. Contact us to leverage our experience to add value to your organization's success.
