

THInc.IT Managed Security & Compliance Offerings

THInc.IT can help you strengthen your organization with a comprehensive program of security technology, services, and insurance. Our professionals will work with you to right-size your solution based on your line of business, industry, key stakeholders, compliance requirements and your budget.

Advanced Threat Defense Services

Take action on the primary threat vectors through advanced technology and superior training for your personnel. Our Advanced Threat Defense Services are built to protect your company every day.

- ▶ Continuous Phishing Training
- ▶ Email and File Protection including Safe Links, Safe Attachments, and Anti-Phishing Policies
- ▶ Information Protection including Data Loss Prevention and Sensitive/Secure File Tagging
- ▶ Endpoint Protection for Laptops, Tablets, and Mobile Devices includes Antivirus/Antimalware, Internet Browsing Protection, and Encryption
- ▶ Network Protection including Next Generation Firewall with Intrusion Detection and Prevention, Threat Emulation, and URL Filtering

24x7 Security Operations Center & Artificial Intelligence Defense Platform

Receive all the benefits of an enterprise-class security organization without investing in expensive infrastructure, and the additional benefits of nascent technology capabilities and security analysts without the maintenance and labor costs. THInc.IT's advanced AI-enabled system is designed to cover complex regulatory compliance, business continuity and risk management needs.

- ▶ 24x7 security operations center
- ▶ Robust security platform with real-time attack visualization capabilities leveraging AI to identify and mitigate zero-day attacks
- ▶ AI vulnerability correlation that integrates data from detection systems, eliminating false positives
- ▶ Unparalleled visibility in distributed networks to correlate activity in your environment, identifying hidden threats, suspicious trends and other potentially dangerous behavior
- ▶ Sophisticated reporting tools for GDPR, HIPAA, SOX, FISMA, ISO, PCI-DSS, GPG13 and other compliance standards

Data Protection Services

Provide an increasing level of protection against data loss, corruption, ransom or other malicious attacks, and include strategic business continuity consulting and management to ensure your business keeps running.

- ▶ Backup and Recovery
- ▶ Disaster Recovery
- ▶ Business Continuity

Cyber Security Protection Services

THInc.IT and Cherry Bekaert LLP combine our talents to deliver critical **Assessment, Protection, and Insurance (API)** services to ensure your defense program stands up under scrutiny, attack, and that you are ready to recover when an incident occurs.

Assess vulnerability and potential areas for cyber risk

- ▶ Cyber Risk Assessments
- ▶ Readiness Assessments
- ▶ Vulnerability Assessments
- ▶ Cyber Due Diligence

Protect your enterprise from attack and data breaches

- ▶ IT Governance
- ▶ Security Training Program
- ▶ Social Engineering Testing
