Raleigh, NC 27612

### Let's Talk

E peyton.black@cbh.com  
P 919.782.1040

A Director in Cherry Bekaert's Risk Assurance & Advisory Services group, Peyton helps businesses implement sustainable risk management programs by optimizing business, financial, operational, and governance processes and internal controls. He provides clients a range of advisory and assurance services, including internal audit co-sourcing, internal control and risk assessments, Sarbanes-Oxley consulting and readiness, post-acquisition integration reviews, financial system implementation reviews, and financial accounting and reporting guidance.

With accounting, consulting, and internal auditing experience since 2000, primarily in the semiconductor, manufacturing, and consumer business/retail industries, Peyton began his career at a Big Four accounting firm, where he was responsible for managing integrated audit procedures for various public and private companies. Peyton later transitioned to a boutique consulting firm where he provided risk advisory, internal audit, and accounting consultative services to clients.

Prior to joining Cherry Bekaert, Peyton served for over seven years in internal audit leadership roles, including director of internal audit, for a large public, multinational company. His responsibilities involved directing and managing all aspects of the internal audit department's global activities.

 Industrial Manufacturing

 Technology
