Innovative & Tailored Service

As part of Cherry Bekaert Accounting Advisory Projects & Solutions practice, we design a custom solution to meet your needs. You can rely on us to collaborate with your teams to ensure a successful outcome and translate strategic objectives into practical solutions that deliver tangible results.

Our aim is to provide your organization's finance and accounting departments with innovative tailored service offerings to assist clients through the various areas:

► **Accounting Services:** Financial statement preparation and reporting, including Environmental, Social and Governance (ESG) reporting, month and year-end close support, accounting process narrative review, lease accounting

software selection, adoption and project management, strategic guidance on special accounting projects and resources for accounting system setup.

► **Audit Assistance:** Our services are highly tactical. Balance sheet account reconciliation preparation, financial statements and footnote disclosure preparation, audit gap assessment, preparation workshops for audits and reviews, and interfacing with the auditor.

► **Staff Augmentation:** Our model is solution based, focusing on accounting support, budget preparation, forecasting and cashflow benchmarking, analyzing and handling data, due diligence data room support, and integration management support.

Success Stories & Tailored Solutions

CLIENT UNEXPECTED TURNOVER OF SENIOR MANAGEMENT

Challenge: A higher education institution experienced significant turnover in the accounting department before and during the annual audit resulting in their inability to meet regulatory and internal reporting deadlines.

Our Solution: Cherry Bekaert assessed the client's current needs, and obtained an understanding of the current conditions of the books and records prior to year-end closing and audit requests. With this understanding, we mobilized and provided the client with the necessary professionals to ensure continuous internal reporting and audit requirements were met in accordance with prescribed deadlines.

SWAT TEAM APPROACH TO COMPLETE AUDITS OF PRIVATE EQUITY PORTFOLIO COMPANIES

Challenge: A private equity group invested growth capital in one new technology portfolio company per month. The private equity group required that a specific Top Ten PCAOB registered CPA firm perform the audit of each portfolio company. Most of the acquired companies either had not been audited or had been audited by local firms. While the acquired companies had finance and accounting talent, the private equity group advocated for internal talent to focus on priorities other than the audit.

Our Solution: Cherry Bekaert provided customized audit assistance to each of these portfolio companies. Our solutions were led by partners and senior managers who have decades of accounting and auditing experience. The portfolio companies needed solutions that vary widely from focused services on oversight to accounting basics (account reconciliation, accrual cutoffs, trial balance maintenance and audit support). Whatever the need was, our professionals provided a one-stop solution for the portfolio of companies and their private equity sponsor recognized the right solution for them to focus on the growth that lies ahead for the company.
