## Transforming Government & Public Sector in the Digital Age

The impetus for much needed digital transformation in government and the public sector has never been more important to better manage risk, protect value, and build sustainable and resilient operations.

Cherry Bekaert's Government & Public Sector (GPS) advisory team has a deep understanding of the business of government and the public sector, and the complex challenges federal, state and local governments, and public sector organizations face. We help government and public sector organizations transform and modernize to meet these challenges and to work in new ways. Using a digital environment with data-driven practices can increase the efficiency and effectiveness of their operations and teams allowing a better focus on the achievement of their objectives and mission.

## How We Can Help

Our team is comprised of advisory professionals with deep business consulting experience, many of whom have worked in government, with first-hand knowledge of government business process, technology, rules and regulations, and experience working with elected office holders and career civil servants.

Our priority is enabling governments and the public sector to harness their full potential by optimizing data for better decision making and service delivery and keeping data safe.
